LOOPBACK

Introduction

Loopback is a revolutionary token built on the Solana blockchain, designed to offer rewards for holders for every transaction. With fast transactions, low fees, and a growing ecosystem, Solana provides the perfect foundation for LOOP to thrive.

This whitepaper outlines the vision, tokenomics, roadmap, and long-term goals of LOOP.

Vision & Mission

Vision

To become a leading community-driven token on Solana, fostering adoption, engagement, and innovation.

Mission

Create a strong, decentralized community.
Provide real utility through rewarding early-adopters and long-term holders in SOL.

Tokenomics

- **Symbol:** \$LOOP
- **Blockchain:** Solana (SPL Token)
- **Total Supply:** 1,000,000,000
